INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/NO2003/000116

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	<u>1 - 4</u>	YES
	Claims		NO
Inventive step (IS)	Claims	<u>1 - 4</u>	YES
	Claims		NO
Industrial applicability (IA)	Claims	<u>1 - 4</u>	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

The documents cited in the International Search Report represent the prior art. The claimed invention stated in claims 1-4 is not anticipated by these documents. None of the documents or any relevant combination of them reveals a method and a device for detecting a leak in a reciprocating machinery as described by these claims.

According to the arguments stated above, the invention claimed in claims 1-4 is novel and considered to involve an inventive step. The industrial applicability of the claimed invention is obvious.
